Home Learning Guidance Pupils

We appreciate learning at home is a new and unusual experience. However, we are here to support you so please keep connected. If you are unsure about anything or get stuck with your work then please ask for support.

1

Have a routine and stick to it. Check Class Charts every day (KS3) and Microsoft Teams (KS4)-assignments to see what learning has been set.

3

Take regular breaks away from your computer, mobile or television.

4

Be safe online – don't share any passwords or personal information with anybody.

6

Stay active. Complete a physical activity every day. For example,
<https://www.youtube.com/user/thebodycoach1>

2

Do your work, stay in touch with your teacher and ask questions via Microsoft Teams (KS4 only) and/or the appropriate school email address. Teacher will try to get back to you as soon as possible.

5

Submit work weekly, where possible, using Microsoft Teams (KS4 only) and/or email your work to the class teacher directly (KS3) using your school email

7

Stay connected with the school. Look out for the tweets each week about keeping a healthy mind.

Use the following links to find your home learning

Years 7-9: <https://www.classcharts.com/student/login>

Year 10 and 11: <https://teams.microsoft.com/>
